Steven Short

INTER-OFFICE MEMORANDUM
CITY OF SPRINGFIELD

APR 23 1986

ATTENTION: STEVEN SHORT

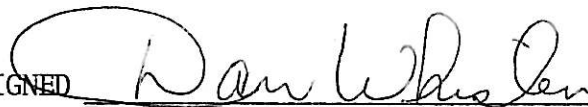

DATE: APRIL 21, 1986

DEPARTMENT: PUBLIC WORKS-SANITARY SERVICES

.....

An inspection was made by us of Chem Supply Company, 2170 E. Blaine on April 16. During this inspection, a large volume of 55-gallon drums were noted to be stored outside. These drums are used to ship a number of various chemicals. You may wish to check out this situation, as the company is adjacent to a public waterway. There were not apparent means of controlling any residual run-off from these drums.

SIGNED

Dan Whisler
Fire Marshal

2170 E. BLAINE

Mr. John Kelley, Manager

2170 E. Blaine
Champion Turf Company
Springfield, MO 65802

Dear Mr. Kelley:

On September 10, 1976, personnel from this office inspected a recently constructed canopy over your outside washing pad. Since this canopy apparently prevents storm water from entering the sanitary sewer during periods of normal rainfall, you are in substantial compliance with City, State and Federal Law.

Thank you for your cooperation in correcting this problem. If you have any further questions, please feel free to call.

Yours truly,

Gene Pabst
Water Pollution Control
Inspector III
Surveillance and Enforcement

Mr. Eugene Pabst
Water Pollution Control Inspector
City of Springfield, Missouri

Dear Sir:

Thank you for your recent letter informing us of our need to comply with the City's regulations regarding sewer drainage control.

Our Springfield branch office had received several quotations from companies to build the necessary drain, but all the quotes were prohibitive. We are making plans to build our own and would like to request that a City representative meet with our manager, John Kelley in Springfield, to bring him up to date on this communication.

Our Kansas City representative will be in Springfield the week of September 9th to start construction. Please advise if you can have a representative meet with us during that time.

Sincerely yours,

CHAMPION TURF EQUIPMENT INC.

Dear Mr. Kelly:

This office received a letter from you, dated June 1, 1976, stating that you were planning to cover your outside wash area to prevent storm water from entering the sanitary sewer. No definite time limit was placed on completion of this project since you stated, during our phone conversation June 1, 1976, that the project would be completed in the near future. As of this date, 2 months after our conversation, there is no sign of any work being done to correct this problem.

Will you please submit to this office in writing, within fifteen (15) days, a time table as to when this project will be completed.

If you have any questions, feel free to call.

Yours truly,

Eugene Pabst
Water Pollution Control Inspector III

City Hall
Springfield, MO 65802

Dear Mr. Pabst:

This letter is to confirm our telephone conversation on June 1, 1976, concerning the washing pad at the southwest corner of my building.

As of this date, the wash pad area will be covered with a plastic sheet to preclude storm water from entering the sewer system.

Some time in the future I will construct some type of canopy over the area to replace the plastic sheet.

Respectfully yours,

John P. Kelley
Manager

Dear Mr. Kelly:

This letter is to confirm our conversation on March 10, 1976, concerning the washing pad at the southwest corner of your building.

This washing pad is attached to the sanitary sewer (confirmed by dye tracing) and is in apparent violation of Springfield City Code, Chapter 30, Sec. 30-5, since there is no means to prevent storm water from entering this drain. Chapter 30, Sec. 30-5 specifically states "No person shall discharge or cause to be discharged any storm water, surface water, ground water, roof runoff, subsurface drainage,... to any sanitary sewer." During our conversation you agreed to put some form of canopy over this washing pad so as to eliminate the problem.

Please contact this office in writing as to when the above mentioned work will be completed so a final inspection can be made.

Thank you for your cooperation in this matter. If we can be any further assistance please feel free to call.

Yours truly,

Eugene Pabst
Water Pollution Control Inspector III
